

The Story of YUDUM

Please find below information about a new publication, *The Story of YUDUM* by Aaron Stuart with illustrations by Karen Briggs.

Aaron's purpose in writing this story was twofold: as a health worker in suicide prevention with Centacare Catholic Family Services, Port Pirie Diocese, Aaron understands the value of culturally appropriate resources to support his work; as a proud Aboriginal man he knows that Aboriginal stories resonate with all Australians.

Centacare were very pleased to support Aaron's endeavours and are delighted with the end result of this creative work. They are confident *The Story of YUDUM* will have an impact in both the health and education sectors, as the story is compelling and the artwork and design very engaging.

We would appreciate you helping us make *The Story of YUDUM* a best seller!

You can do this by informing your work and community networks of its availability at a very reasonable price (\$15) from Centacare Port Pirie Diocese phone (08) 8644 2020. We believe it has value as a story to be enjoyed and also as a resource for mental health workers and educators involved in Aboriginal Studies and Cultural Awareness classes.
