"Our Ways of Leadership" video

OUR IMPACT: ADVANCED LEADERSHIP

"Since graduating the IAHA Leadership Program, it has allowed me to manifest further professional opportunities and growth. I have taken on board IAHA's cultural safety principles and put it into my own practices. I have been fortunate to implement an Indigenous Employment Strategy and create a working party, to increase Aboriginal employment numbers within my workforce. It has given me the platform to educate my non-Indigenous colleagues on why we need this strategy, where I have full support from the CEO and the working party group, which has enabled innovation and courage, to enhance the overall strategic objectives and direction for the company."

Matey Farrell, Mental Health Graduate & Leadership Alumni
